

VACANCY

ELECTRICAL ENGINEER-PLANNER

Jamaica Broilers Group Limited is seeking a proactive, hands-on individual, whose core function will be to plan, schedule and execute routine Maintenance tasks as well as the execution of Electrical/ Instrumentation projects by ensuring their quality, legal aspects, cost effectiveness and timely completion, to fill the captioned position at the Best Dressed Feed Mill.

The ideal candidate should Possess:

- ◆ A First Degree in Electrical Engineering, majoring in Instrumentation & Controls.
- ◆ Sound knowledge of processing machinery and equipment, including PLC and weighing systems.
- ◆ Competence in designing and troubleshooting electrical control system principles.
- ◆ Well-developed analytical, troubleshooting and diagnostic skills.
- ◆ Thorough knowledge of instrumentation controls and network-based computer systems.
- ◆ Working knowledge of industrial equipment – Variable Frequency Drives (VFD), Soft-starters, Pumps, Gearboxes, Conveyors etc.
- ◆ Working knowledge of Computerized Maintenance Management Systems.
- ◆ Competence in Microsoft Office Suite, accounting software and spreadsheet applications.
- ◆ Good interpersonal, oral and written communication skills.
- ◆ Excellent work ethics, time management and human relation skills.
- ◆ Willing to work on weekends and on public holidays, if required.
- ◆ Minimum of three (3) years' experience in a Supervisory role in an agri-business, manufacturing plant operation.
- ◆ A Valid Jamaican Driver's Licence.
